採点	内容・構成・語彙・文法の 4 観点、各 4 点＝16 点
型	意見 → 理由 1＋具体例 → 理由 2＋具体例 → 結論。理由は 2 つ、各々に具体例。
最重要	立場を最初に決め、最後まで変えない

QUESTION

Some people say that working from home is better than working in an office. Do you agree with this opinion?

2 理由の作り方

2級の核は『理由＋具体例』。理由は抽象（save time）、具体例は場面や数字（two hours commuting）。

理由（抽象）	具体例（具体）
It saves time.	For example, no two-hour commute → more family time.
You can live anywhere.	Some workers moved to cheaper towns.

理由バンク

賛成（home 派）の理由バンク：save commuting time／live anywhere／focus better／lower costs。各理由に for example の具体例を必ず添える。

3 模範解答の分析

I agree that working from home is better than working in an office. First, it saves a lot of time. For example, workers who used to spend two hours commuting every day can now use that time for their families, hobbies, or rest. Second, it allows people to live anywhere they like. Many workers have moved from crowded cities to quiet towns with cheaper houses while keeping the same jobs. For these reasons, I believe working from home is a better choice for many people today.

意見	I agree that ...
理由 1＋例	First, it saves time. For example, ... two hours commuting ...
理由 2＋例	Second, ... live anywhere ... moved to quiet towns ...
結論	For these reasons, I believe ...

型の語（First / Second / For these reasons）が、読み手に論の流れを伝えている。
